COMMON NAME	Mount SCIENTIFIC NAME	Diablo Bu	utterfly Lis	st 2016 NECTAR PLANTS	NOTES
Acmon Blue	Plebejus acmon	All year	buckwheat, legumes	chamise, horehound, coyote bush, narrow-leaved	Rare in winter
Alfalfa Sulphur	Colias eurytheme	All year	legumes	milkweed yellow starthistle	Rare in winter
Anise Swallowtail Bramble	Papilio zelicaon Callophrys	March to October	fennel, lomatium, tauschia buckwheat,		
Hairstreak	perplexa	March to April February to	lotus plantain, owl's	California buckeye, coyote brush,	
Buckeye	Precis coenia	December	clover, monkey flower	mustards (sinapis and brassica) California	
Cabbage White California	Pieris rapae	All year	mustard family	buckeye, Italian thistle, rose clover	Rare in winter Possibly not
Dogface	Colias eurydice	April and June	false indigo	California buckeye, Oregon	resident
California Hairstreak	Satyrium californicum	May to July	oak	sunshine, narrow-leaved milkweed, yarrow	
California Ringlet California Sister	Coenonympha tullia california Adelpha bredowii	March to November April to	grass	California buckeye	
California Tortoiseshell	californica Nymphalis californica	November All year	California lilac		Rare in summer. Migrates to high mountains.
Canyon Oak Hairstreak	Habrodais grunus Iorquini	June to August	canyon oak		gea.i.ca.ii.ca
Columbian Skipper Common	Hesperia columbia Euphydryas	May to June, September	bunchgrass monkey flower family,	Oregon sunshine	
Checkerspot	chalcedona Strymon	March to July February	snowberry, plantain plectritis, honeysuckle,	Sunstinie	
Hairstreak Common Sootywing	melinus pudicus Pholisora	to October March to	mallow, buckwheat pigweed,		
Skipper Common White	catullus Pontia protodice	August April to November	amaranth mustard family		
Common Checkered Skipper	Pyrgus communis Speyeria	March to November	mallow	California	
Crown	callippe comstocki	May to August	violet	buckeye, coyote mint	Morgan Territory only
Crown Fritillary Dryope	Speyeria coronis Satyrium sylvinum	June May to July	violet willow	narrow-leaved milkweed	Territory only. Possibly not resident.
Hairstreak Eastern Tailed Blue	sylvinum dryope Everes comyntas	May to July March to September	legumes		
Echo Blue	Celastrina ladon echo	February to July	California buckeye, California lilac	toyon, coffeeberry, mustards (sinapis and brassica)	
Eufala Skipper	Lerodea eufala	July to October	grass		Possibly not resident; longer flight period elsewhere.
Farmer Skipper	Ochlodes agricola	April to July	grass	California buckeye, coyote mint	,ioiG.
Field Skipper	Atalopedes campestris Hylephila	April to November April to	grass	bull thistle mustards (sinapis and	
Fiery Skipper	phyleus	November	grass	(sinapis and brassica)	Reported sighting June 24, 2016 on
Funereal Duskywing	Erynnis funeralis				the south side of the Mary Bowerman Trail in the chaparral section. Reported
					sighting on March 27, 2015, in Mitchell Canyon.
Gold-Hunter's Hairstreak	Satyrium auretorum	May to June	oak	California buckeye, Oregon sunshine	
Gorgon Copper Gray Hairstreak	Lycaena gorgon Satyrium tetra	April to July June to July	buckwheat mountain	sulphur buckwheat, gum plant horehound	
Gray Hairstreak Great Blue Hairstreak	Satyrium tetra Atlides halesus estesi	June to July March to October	mahogany	toyon	
Great Copper	Lycaena xanthoides	May to July	dock	California buckeye, gum plant California	Does not
Gulf Fritillary	Agraulis vanillae incarnata	August to November	passion vine	buckeye, bull thistle	survive winter; re-invades from South and West.
Hairy Pipevine Swallowtail	Battus philenor hirsuta	April to October	pipevine	California buckeye	Not resident except possibly in Pine Canyon;
		Scioper	pipeville		strays from North and West.
Hedgerow Hairstreak	Satyrium saepium	October May to August	California lilac	Oregon	strays from North and
	Satyrium			Oregon sunshine, interior redberry, narrow-leaved goldenbush	strays from North and
Hairstreak John Muir's	Satyrium saepium	May to August	California lilac	sunshine, interior redberry, narrow-leaved	strays from North and
